EDUCATION

Union College of Union County

Computer Science, Associates in Science (A.S.)

Union, NJ

Sep. 2025 – May 2027

EXPERIENCE

Undergraduate Researcher - Computer Science

Feb. 2026 – May 2026

Union College of Union County

Union, NJ

- Benchmarked Lovable, a commercial AI website builder, with a hand-coded website to test their claims of single-prompt generation and feature completeness
- Investigated previously existing generated site outputs for their maintainability, UI responsiveness, function, and code efficiency to determine whether the builders were viable
- Organized campus-wide user testing to gather qualitative feedback on the user experience and whether or not the function of AI-synthesized interfaces was usable

New Jersey Pathway UCNJ AgriBusiness Intern - Computer Science

May 2026 – Aug. 2026

Union College of Union County

Union, NJ

- Programmed and built sensors with ESP-32s to measure greenhouse data, such as temperature, humidity, and water level
- Built a website containing a dashboard with the measured data from the sensors
- Grew, maintained, and gave away plants grown from our yields

PROJECTS

Website Portfolio/Online Resume | *HTML, CSS, JavaScript, Git, GitHub, GitHub Pages* Sep. 2026 – Present

- Developed and designed a fully working and accessible portfolio site with HTML, JavaScript and CSS
- Utilized GitHub and GitHub Pages to deploy the website

TECHNICAL SKILLS

Languages: Java, Python, C++, JavaScript, HTML/CSS

Developer Tools: Git, VS Code, Visual Studio, IntelliJ, GitHub, GitHub Pages, Arduino IDE
